Organizing Committee:

A. Sissakian - chairman

S. Bilenky - member of the Committee

A. Bolshakova - scientific secretary

T. Donskova - secretary

A. Olchevski - vice-chairman

Organized by the Joint Institute for Nuclear Research

The program of the school will cover modern topics of neutrino physics including phenomenology, experimental results and theory.

Topics:

- Phenomenology of neutrino mixing and oscillations;
- Neutrino oscillation results and prospects;
- Neutrinoless double beta decay;
- Theory of neutrino mass and mixing;
- Direct determination of neutrino masses.
